

Used Equipment

Used Hoist Equipment

- We can re-engineer and update your used hoist for a new application using current technology

Source Used Hoist Equipment

- We have access to a number of used equipment sources which makes it easy for you to select a hoist that suits your needs

Evaluation of Used Hoists

- Prior to the purchasing of any used hoist, we can complete a field evaluation of the equipment. If you are considering a used hoist, we can provide a detailed evaluation and recommendations for upgrades to meet your project needs.

Used Equipment (Other)

- We can assist you with sourcing and evaluating other used equipment such as:
 - Electrical switch gears
 - Electrical motors AC/DC
 - MG sets
 - Compressors
 - Mills
 - Sheaves
 - Conveyances
 - Headframes

New Equipment

If your project requires new equipment we can assist you with full engineering support from specification to tender packages and vendor reviews.
